

CH Field: Your Company in the Middle East

How can you sell into new markets at a lower cost?

Simple. Let us act as your company in JAFZA, and save yourself the red tape and risks of either setting up your own business, or forming a joint venture. Under our General Licence, we can import a wide range of products on your behalf, costing you less and leaving your bottom line room to grow.

Your route into the Middle East

Established in 2008 in the Jebel Ali Free Zone (JAFZA), Dubai, CH Field holds a General Trading Licence issued by the Dubai government. This allows us to offer a unique service; acting as your company in JAFZA and providing a low-cost, low-risk entry point for an extraordinarily wide range of products, with no duty due at the time of import into the valuable markets of the Middle East and beyond.

Dubai & JAFZA

JAFZA allows all imports and re-exports out of Dubai and GCC to move tax-free. You only pay duty when the imported items are released into 'Free Circulation' into Dubai, UAE or GCC. JAFZA is also next to the world's seventh largest seaport, and close to the new Maktoum International Airport.

We manage the entire process for cargo delivery, including freight forwarding from origin, helping with opening Letters of Credit and ensuring correct shipping documentation. Because there's no tax due on import, the goods can be processed and re-packaged before being re-exported or sold into the UAE market at a duty rate of 5%. We work through established local banks in the UAE, which are more flexible and cost effective.

Your partnership with us means you don't need local distributors, or unnecessary extra costs, which all adds to your bottom line.

In Summary

General Trading Licence

We act as your company in JAFZA, Dubai

Low-cost, low-risk entry point to the Middle East and beyond
